Legal Stuff!!!! Eating raw or undercooked meat, poultry, eggs, or seafood poses a health risk to everyone, but especially to the elderly, young children under age 4, pregnant women and other highly susceptible individuals with compromised immune systems. The cooking of such animal foods reduces the risk of illness. There is a risk associated with consuming raw or undercooked foods such as meat, poultry, or seafood products. If you have chronic illness of the liver, stomach, blood, or have immune disorders, you are at greater risk of illness from raw oysters and should eat oysters fully cooked. If unsure, consult your physician. Food is prepared by, with, and around nuts. Fast food is not good food. One love.
